

THE POWER PACK PROGRAM

Help children in local elementary schools by donating food and/or money for the Power Pack Program. This donation-operated program is designed to help meet the needs of children at risk of hunger when food resources aren't available for them - mostly during non-school hours, especially weekends and holidays.

There is no charge to the children's families or the schools for this service.

- In the 2016-17 school year, we served 775 students each month. Needs have grown.
- We serve every elementary school in Indiana County.
- The food is distributed two times each month.

Distributable Food is Child-Friendly & Non-Perishable, such as:
